PROFESSIONAL SUMMARY

Senior Flutter Developer with 4+ years shipping production cross-platform applications for iOS, Android and Web, with 22 apps live on Google Play, the App Store and the web across GPS and IoT tracking, ride-hailing, logistics, workforce management, healthcare and consumer sustainability. Specialist in Clean Architecture, BLoC and multi-flavor white-label delivery. Author of open-source Flutter packages and of a shared component library used across client applications. Mentor's junior developers on architecture and code-review standards.

SKILLS

Languages and Frameworks: Dart, Flutter (iOS, Android, Web), Kotlin, Clean Architecture, SOLID principles

State Management and Navigation: BLoC, Cubit, GetX, Provider

UI and Design Systems: Figma-to-Flutter implementation, Material Design 3, flutter_screenutil, responsive and adaptive layouts, Arabic and English localization with RTL support

Backend and Real-time: RESTful API integration, Strapi, Firebase (Firestore, Realtime Database, Crashlytics), WebSocket, Pusher, SSE and streaming

Data Persistence: Hive, SQLite, Secure Storage, Shared Preferences

Testing and Observability: flutter_test, Mocktail, Sentry, Firebase Crashlytics

DevOps and Release: Git, GitHub, GitLab, Codemagic, Fastlane, GitHub Actions, multi-flavor white-label builds, Google Play, App Store, TestFlight

AI-Assisted Development: Claude, Cursor, GitHub Copilot, Model Context Protocol (MCP), Ollama

Collaboration: Linear, ClickUp, Slack, Postman

PROFESSIONAL EXPERIENCE

Senior Flutter Developer

Sourcya | Remote, Saudi Arabia | Sep 2025 - Present

- Own delivery and maintenance across 20+ repositories spanning fleet GPS tracking, indoor asset tracking, cold-chain monitoring, ride-hailing, workforce management, healthcare and recycling, shipping 60+ features to production.
- Rebuilt a fleet-tracking application's event-trigger system by replacing 21 flat reactive fields with a consolidated day-schedule state model, eliminating duplicated logic and clearing outstanding tracking and validation defects.
- Built a reusable in-app rating Flutter package for the shared component monorepo, with dependency-inversion seams and Arabic internationalization, integrated across multiple client applications.
- Audit multi-flavor white-label Flutter pull requests covering flavor configuration, Firebase setup and Codemagic CI/CD pipelines.

Lead Flutter Developer (Part-time)

Drop Me | Egypt | Jan 2023 - Present

- Sole Flutter developer from first commit through public release on both Google Play and the App Store for a community-driven recycling application.
- Built and maintain the real-time rewards system and gamified sustainability tracking that drive user engagement.
- Mentor 2 junior Flutter developers on Clean Architecture, state management and code-review standards.
- Maintain the application continuously alongside full-time client engagements, including during transitions between contracts.

Senior Flutter Developer

Mafrooz | Remote, Saudi Arabia | Jan 2025 - Jun 2025

- Led performance optimization on a Strapi-backed waste management and recycling platform spanning mobile and web, covering 67 API endpoints across 13 modules.
- Produced and maintained API documentation from Postman collections for the Strapi backend.
- Engagement continued under Sourcya from Sep 2025.

Flutter Developer

Semicolon | Egypt | Jan 2024 - Jul 2024

- Built and shipped Zaakr, 3M Physics and a suite of e-learning applications.
- Mentored 4 junior Flutter developers on Clean Architecture, state management and code-review standards.

Flutter Developer
Nofalseo | On-site, Menoufia, Egypt | Jun 2023 - Jan 2024

- Developed Cars, a consumer-to-service automotive marketplace, General Consultation, a B2B consulting platform, and Super School, all built on Clean Architecture with BLoC.

Freelance Flutter Developer
Self-employed | Egypt | 2022

- Delivered Az-Cash and El Aqarat as an independent developer.

PROJECTS

All applications below are live and publicly verifiable.

TMT Track - Real-time GPS fleet tracking with geofencing and automated alerts, deployed across Saudi Arabia. Android, iOS and Web.
Google Play | App Store | Web

Rehla - Multi-role ride-hailing and transportation platform covering Driver, Passenger, Operator and Station applications, with real-time matching and route management.
Passenger | Driver (Android) | Driver (iOS) | Operator | Station

Drop Me - Community-driven bottle recycling application with a real-time rewards system and gamified sustainability tracking. Android and iOS.
Google Play | App Store

Kold - Cold-chain monitoring of temperature and humidity across warehouses and sensitive storage areas, with instant alerts and historical reporting. Android, iOS and Web.
Google Play | App Store | Web

Nasni - Indoor tracking solution for real-time monitoring of assets and people within buildings, with live map tracking and dashboard reporting. Android, iOS and Web.
Google Play | App Store | Web

Arbeta - Workforce management application covering worker matching, job assignment and attendance tracking. Android and iOS.
Google Play | App Store

Ammena - Medical services platform for appointment booking, service management and patient tracking. Android and Web.
Google Play | Web

Mafrooz - Recycling services platform covering pickup scheduling and waste tracking, built on a Strapi backend. Web.
Web

Additional applications: Madaan Operator, Mafrooz Cockpit, Maydan, Ujrah Driver, Az-Cash, El Aqarat, Zaakr, 3M Physics, Super School, Cars, General Consultation.

OPEN SOURCE

PlayX Flutter ecosystem - Contributor to a published open-source package ecosystem: playx_network (streaming and SSE, interceptors, path parameters), playx_core (extensions and mapper utilities) and playx_version_update.

EDUCATION

Bachelor of Science in Commerce (English Section)
Menoufia University, Egypt | 2019 - 2023

CERTIFICATIONS

- Flutter MVVM with Clean Architecture, 22 hours, Dec 2022
- Advanced Flutter Clean Architecture, 8 hours, Oct 2022
- The Complete Flutter and Dart Development, 42 hours, Feb 2022

LANGUAGES

Arabic: Native | English: Professional working proficiency
